## GCSE

MATHEMATICS

## Foundation Tier Paper 3 Calculator

Time allowed: 1 hour 30 minutes

## Materials

For this paper you must have:

- a calculator
- mathematical instruments.

## Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.

## Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 80 .
- You may ask for more answer paper, graph paper and tracing paper. These must be tagged securely to this answer book.

11 In a game, the player going first uses crosses and the player going second uses circles.
To win the game, a player must get three crosses or three circles together in a line. The line must be horizontal, vertical or diagonal.

11 (a) Here is the position in a game.

It is Amy's turn to put a cross on the grid.
She wins if she puts a cross in B3
Write down all the other squares where she could put a cross to win the game.

Answer $\qquad$

Amy goes first in the next game.

11 (b) Assume that she will choose a square at random.
Write down the probability that she will put her first cross in square F6

Answer $\qquad$

11 (c) In fact, Amy decides to put her first cross into a corner square.
What does this mean about the probability that she will put her first cross in square F6? Tick a box.

Give a reason for your answer.
